FOR IMMEDIATE RELEASE

**Intelisys Business Solutions and PAETEC Software Corp.
Announce Strategic Alliance**

**Companies Combine Software Technologies and Telecom Expertise to Provide a
New Management Service for the Small-to-Medium Business Market.**

FAIRPORT, N.Y. and DENVER, Colo. – PAETEC Software Corp. and Intelisys Business Solutions (IBS) today announced a strategic alliance which will allow small-to-medium (SMB) businesses and institutions to leverage the benefits of an enterprise-class Telecom Expense Management (TEM) solution, traditionally reserved for large enterprises with a multi-million dollar communications budget. The agreement leverages the recent development of innovative technologies from both companies, combining PAETEC’s PINNACLE Communication Management Suite with Intelisys Business Solution’s Customer Resource Management (CRM) system.

"The unique combination of the PINNACLE Software and IBS enables us to provide value-added services to our clientele," says Joel St. Germain, CEO of Global Communications Group, one of the largest independent telecom sales agencies in the U.S. "This will help us save significant time, resources and provide a more timely service to our customers."

The partnership combines the industry expertise of IBS with PINNACLE software, a comprehensive integrated enterprise-class Service Lifecycle Management (SLM) solution. SMB organizations can now concentrate their resources on growing their business without being diverted to manage activities that are not part of their core competencies. IBS offers a flexible and scalable outsourcing solution that is powered by the PINNACLE Communication Management suite.

IBS provides a full array of Telecom Lifecycle Management solutions that include:

- Intuitive access to Telecom Service Inventory

- Reconciliation of carrier invoices
- Dispute management services
- Electronic payment notifications
- Account Payable services
- Improved Business Intelligence via real-time financial and operational analysis

Dana Topping, co-owner of Intelisys, Inc. explains, "Communication Services are consistently one of the top three expenses for the SMB organization. IBS partners with SMB organizations to help reduce costs and right size the organization's expensive communication services.

"We are excited about our new relationship with Intelisys Business Solutions," said Larry Foster, vice president and general manager of PAETEC Software Corp. "This new relationship brings the power of PINNACLE software to a new category of customers."

About PAETEC

PAETEC (NASDAQ: PAET) is personalizing business communications for medium and large businesses, enterprise organizations and institutions across the United States. We offer a comprehensive suite of IP, voice, data, and Internet services, as well as enterprise communications management software, network security solutions, CPE, and managed services.
